

**Jonathan Govette****Co-Founder and CEO**

Short bio. Healthcare entrepreneur who co-founded Oatmeal Health after losing more than ten family members to cancer.

Full bio. Jonathan has spent more than 20 years building and scaling digital health companies. As CEO and co-founder of ReferralMD, he grew a patient engagement platform to hundreds of health systems and payers nationwide, including partnerships with Amazon and Cedars-Sinai. He is an alumnus of CancerX and Techstars. He co-founded Oatmeal Health in 2022 to solve the problem he kept seeing everywhere: eligible patients who never got screened because no one reached out. His adoptive mother, Janet, a community events manager for the YMCA and the City of Santa Maria, taught him that communities are built one relationship at a time.

**Yuri Ahuja MD PhD****Co-Founder and CTO**

Short bio. Harvard-trained physician and biostatistician who leads Oatmeal Health's AI and clinical informatics platform.

Full bio. Yuri completed both his MD and his PhD in Biostatistics at Harvard, where his doctoral research focused on machine learning methods for EHR-based risk prediction. He completed his Internal Medicine residency at NYU Grossman School of Medicine and is a Physician Scientist at Mount Sinai. He spent nearly a decade publishing research on predictive models that identify patients falling through the cracks. At Oatmeal Health, he leads the AI and clinical informatics platform.

**Ashish Basuray PhD****Co-Founder and COO**

Short bio. Scientist and entrepreneur who leads Oatmeal Health's partnerships, operations, and site expansion.

Full bio. Ashish holds a PhD in Supramolecular Chemistry from Northwestern University and a BS from Carnegie Mellon University. He was a Research Associate at the NIH National Cancer Institute, co-founded PreScouter, and later served as CEO of FirstLook AI. He has 14 peer-reviewed publications and two issued patents. At Oatmeal Health, he leads partnerships, operations, and site expansion across the community health center network.

**Thamer Sartawi MD****Chief Clinical Officer**

Short bio. Interventional pulmonologist specializing in lung cancer screening and nodule management.

Full bio. Thamer is an interventional pulmonologist and critical care physician who specializes in lung cancer screening and nodule management. He has practiced at The Toledo Clinic, ProMedica, Blanchard Valley, and Hutchinson Regional, and is a Clinical Assistant Professor at the University of Kansas. He holds a Master's in Health Inequalities and Public Policy from the University of Edinburgh.

Yakov Keselman PhD

Principal ML/AI Engineer

Short bio. Rutgers-trained computer scientist who built Oatmeal Health's lung nodule cancer risk model.

Full bio. Yakov is a Rutgers-trained computer scientist and machine learning engineer with more than 20 years across healthcare AI, autonomous vehicles, and enterprise data science. His computer vision research has more than 450 citations. He has worked as an Applied Scientist at Amazon Web Services, and at Oatmeal Health he built the company's lung nodule cancer risk classification model.

Press inquiries: hello@oatmealhealth.com. LungAI is investigational and not FDA 510(k) cleared. It is not available for clinical use in the United States.
